

Evan Dolatowski

CYBERSECURITY | CLOUD SECURITY | SOFTWARE ENGINEERING

Bay City, TX 979-240-1573 | evandolatowski@yahoo.com

[GitHub](#) | [LinkedIn](#) | [Portfolio](#)

Cybersecurity student and former full-stack developer with 4+ years of experience building and optimizing web applications. Strong foundation in software engineering, now focused on **cloud security, infrastructure automation, and security tooling.**

Hands-on experience with **AWS, Azure, and GCP**, developing real-world projects that simulate vulnerabilities, automate detection, and generate structured security reports. Passionate about **DevSecOps, risk analysis, and building secure systems at scale.**

Skills

Languages: Python, Go, JavaScript

Cloud Platforms: AWS, Azure, GCP

Infrastructure: Terraform, Docker

Security: Vulnerability Scanning, IAM, Network Security, SIEM

Tools: Git, Linux, CLI, Bash, Microsoft Office

Personal: Critical thinking, time management, multitasking, communication, teamwork and effective collaboration, problem solving, adaptability, self-motivation, ability to work under pressure

Certifications

CompTIA A+

CompTIA Network+

CompTIA Security+

Microsoft Certified: Azure Fundamentals (AZ-900)

Education

Bachelor of Science in Cybersecurity

Maryville University — St. Louis, MO

Expected Graduation: May 2027

Experience

Business Analyst - Metro National - Houston, TX

04/2025 – Present

- Gather and analyze software requirements by collaborating with stakeholders and business teams
- Perform application testing, validate functionality, and document results for quality assurance
- Provide user support by troubleshooting issues and collecting feedback to improve system performance

Full Stack Developer - OneReach.AI - Remote

10/2022 – 01/2024

- Developed data analytics dashboards for enterprise clients using modern web technologies
- Optimized SQL queries and backend logic, improving response times and reducing server load
- Created detailed API documentation, improving developer onboarding and integration efficiency
- Collaborated in Agile teams to deliver scalable, high-quality software solutions

Pharmacy Technician - Walgreens - Bay City, TX

10/2015 - 10/2022

- Managed high-volume workflows while maintaining accuracy in regulated environments
- Provided customer support and resolved issues in fast-paced settings
- Ensured compliance with industry regulations and operational procedures

Projects

Cloud Sentinel - Multi-Cloud Security Scanner

- Built a multi-cloud security tool using AWS, Azure, and GCP with Terraform
- Developed a modular Python CLI for deploy, scan, report, and teardown workflows
- PDetected misconfigurations including open SSH, public storage, IAM issues, and missing logging
- Implemented risk scoring system (0-10) with severity classification
- Generated JSON/CSV reports for security analysis and SIEM ingestion

Cybersecurity Homelab (KVM, Active Directory, Splunk)

- Built virtual enterprise lab with pfSense, AD, and Linux systems
- Configured centralized logging using Splunk SIEM
- Simulated attacks and analyzed logs for detection

Go REST API

- Built REST API with JWT authentication using Go and Gin
- Implemented secure password storage with bcrypt and role-based access control
